MORGAN HAD THE MONEY

So He Outbid the King of England in
Buying Ancient Books and
Manuscripts

New York, Oct. 29.—Agents for J.
Pierpont Morgan have paid \$4,000 duty
on an illuminated Bible and manu-
script inclosed in the box with the
book. The manuscript is the original
warrant for the arrest of John Bun-
yan for heresy. Treasury agents abroad
placed the valuation of \$25,000 on the
Bible, an estimation on which duty
was collected.

Mr. Morgan had as a competitor for
his possession King Edward. The book
is one of the magnificent examples of
Illuminated text of the monks of Cluny,
and was done in the thirteenth century.

THIS MARRIAGE A FAILURE
The Duchess of Marlborough, W. K.
Vanderbilt's Daughter, Separates
From Her Husband
London, Oct. 29.—The Manchester
Guardian says that a deed of separa-
tion has been signed between the Duke
and Duchess of Marlborough, on the
ground of incompatibility of temper.

The duchess is a daughter of the
American multi-millionaire, W. K.
Vanderbilt. All those acquainted with
the details of the affair say the duke
is to blame.

**THE INDICTMENT MAKES NO
DIFFERENCE TO HIM NOW**
Kansas City, Mo., Oct. 29.—Robert
M. Snyder, a millionaire of this city,
under indictment in St. Louis, on a
charge of bribery, was killed Satur-
day in an automobile accident.

A Strange Feast.
A curious feast is observed by the
Mohammedan inhabitants of India, in
which the origin of the custom known
as relating to the town and may possibly
be traced. It is called the Holi and
consists chiefly in the plentiful sprink-
ling upon all and sundry of a certain
red preparation called holi powder. It
stains the white clothes of the natives
with an ugly, dirty looking red that
conspires up before timid eyes dread
visions of bloody fights and ghastly
mutilities. The powder is made in two
shades—the one vermilion, the other
rose red—and both are used impartial-
ly by the observers of the ceremony,
who delight in bedaubing their faces
with the powders until they look like
strange and hideous denizens of hades
come up, still glowing with the fires
of that region. Among the better
classes this festival is falling into dis-
favor, for it leads to many unpleasant
excesses and had its origin in some de-
cidedly dissipated scene in ancient
heavenly history.

The Age of Fishes.
The age of fishes is seldom measured
by a definite period of years. Most of
them grow as long as they live, and
apparently live until they fall victims
to some stronger species. It is re-
puted that carp and pike have lived for a
century, but the evidence needs veri-
fication.

Needless Suffering.
"Tommy," said Mr. Tucker, laying
him across his knee and vigorously ap-
plying a large and muscular paternal
hand, "it almost breaks my heart to do
this."

"Then why don't you let maw do it?"
yelled Tommy.—Chicago Tribune.

Bad Luck.
"Do you believe in the bad luck of
thirteen?"

"Do 1? I was refused by twelve
girls, and the thirteenth took me."—
Stray Stories.

You may depend upon it that he is a
good man whose intimate friends are
all good.—Lavater.

HUMAN BLOOD MARKS

A tale of horror was told by marks
on human blood in the home of J. W.
Williams, a well known merchant of
Bac, Ky. He writes: "Twenty years
ago, I had severe hemorrhages of the
lungs, and was near death when I be-
gan taking Dr. King's New Discovery.
It completely cured me, and I have re-
mained well ever since." It cures
Hemorrhages, Chronic Coughs, Set-
tled Colds and Bronchitis, and is the
only known cure for Weak Lungs. Every
bottle guaranteed by Tydings &
Co., druggists, 50c, and \$1; trial bot-
tle free.

Jumpers of the Sea.

Many of the inhabitants of the sea
are good jumpers and some have be-
come famous. Among them should be
mentioned the tarpon or silver king, a
huge fish with scales that gleam like
silver. In the Pacific waters the tuna,
an ally of the horse mackerel, is noted
for its leaps. Sometimes a school
sweeps up the coast, and the powerful
fish, often weighing 800 pounds, are
seen in the air in every direction. They
dart like an arrow, turn gracefully five
or six feet in the air and come down,
keeping the water for acres in a foam,
and, if not the greatest, they are cer-
tainly the most graceful of the jump-
ers of the sea.

The Whirling of a Bullet.

Bullets from the thirty caliber rifles
of the United States army whirl with
great rapidity. The rifling gives one
revolution of the bullet about its axis
in ten inches. At the muzzle the ve-
locity of the bullet is 2,300 feet a
second, which means 2,700 turns a sec-
ond, assuming that the bullet does not
stop in the rifling. The circumference
of the bullet is .342 inch, which gives
a peripheral velocity of 2,600 inches
each second, or 12,000 feet a minute.

A severe cold that may develop into
pneumonia over night, can be cured
quickly by taking Foley's Honey and
Tar. It will cure the most obstinate
cough and strengthen your
lungs. The genuine is in a yellow
package. For sale by all dealers.

ally carried by the store; that this

AN AWFUL COUGH CURED

"Two years ago our little girl had
a touch of pneumonia, which left her
with an awful cough. She had spells
of coughing, just like one with whoop-
ing cough, and some though she would
not get well at all. We got a bottle of
Chamberlain's Cough Remedy, which
acted like a charm. She stopped
coughing and got stout and fat.

PROOF OF THE PROVERB

That There is No Fool Like an Old
Fool—A Sexagenarian Commits
Murder and Suicide

New York, Oct. 29.—Louis G. Hamp-
ton, assistant secretary of the Uni-
ted States Trust Company, of this city,
shot and killed Victoria L. Tachow,
a beautiful young woman, in the hotel
Griffin in West Ninth street, late Sat-
urday night and then committed sui-
cide.
Hampton who was about 60 years
old, leaves a wife and two children.
Miss Tachow was 25 years old and
lived with her father and invalid
mother. She was employed in a Fifth
avenue department store.
Hampton was infatuated with the
woman and they had been seen to-
gether many times during the past
month. They had been at the hotel
where the tragedy occurred since early
yesterday.

Whether or not the tragedy was the
result of a pact between the man and
woman to die together has not been
determined, but the circumstances go
to show that the young woman had
agreed to die with her companion.
Macon, Oct. 29.—Alvin Bayne, who
pitched for the Macon club in 1904,
and finished second with the pitchers,
finished with the Atlanta Club in the
fall of the same year, and who was
drafted by Rochester of the Eastern
League in the spring of 1905, and who
was later signed on by Birmingham
of the New York State League, com-
mitted suicide at the Moss Lake Fruit
Company's place, twenty miles from
Fort Valley Saturday night.
Bayne had just returned to the South
after a successful season with Birm-
ingham. He was one of the best
hitting pitchers in the league, and was
used in the field when not in the box.
He married several months ago.

Cleopatra's Mummy.
Where does Cleopatra's body rest?
Scarcely a layman who would not an-
swer, "Why, in Egypt!" After her
cavaleries, her wiles, her life of in-
tense if not very exalted loves, Cleo-
patra was laid in one of the loveliest
tombs that has ever been fashioned by
the hand of man. But what a change
2,000 years has brought about! Today
an ugly mummy, with an emblematic
bunch of decayed wheat and a coarse
comb tied to its head—a mere roll of
tightly swathed dust—lies crumbled in
a hideous glass case at the British mu-
seum. It is Cleopatra, the once great
queen, a Venus in charm, beauty and
love.—London Spectator.

Boston's Name.
Boston owes its name to a Roman
Catholic saint. Early in the seventh
century a Catholic monk named Bo-
tolph founded a church in what is now
Lincolnshire, England.
As the years went by a town grew
up around the church and was called
Botolphstow. This was shortened for
convenience into Botolphston, then to
Botoston and finally to Boston. John
Cotton came to America from that
town and named the New England
capital after his native village.

RESULT OF NEGLIGENCE
In most cases consumption results
from a neglected or improperly treated
cold. Foley's Honey and Tar cures
the most obstinate coughs and pre-
vents serious results. It costs you no
more than the unknown preparations
and you should insist upon having the
genuine in the yellow package. Sold
by all dealers.

Recalling a Mailed Letter.
Many times people would like to re-
call a letter after it has been mailed.
This can be done even if the letter has
reached the postoffice of its destina-
tion. At every postoffice there are what
are called "withdrawal blanks." On
application they will be furnished, and
when a deposit is made to cover the
expense the postmaster will telegraph
to the postmaster at the letter's desti-
nation asking that it be promptly re-
turned. The applicant first signs this
agreement: "It is hereby agreed that,
if the letter is returned to me, I will
protect you from any and all claims
made against you for such return and
will fully indemnify you for any loss
you may sustain by reason of such re-
turn. And I herewith deposit \$—
to cover all expenses incurred and will
deliver to you the envelope of the let-
ter returned." In many cases persons
have made remittances to fraudulent
parties or irresponsible firms, not learn-
ing their true character until after the
letter had gone, and have succeeded in
recalling them.—Boston Transcript.

Implicit Trust.
"Do you trust your husband implicit-
ly in all things?"
"What a question! Of course I do—
to a certain extent."—Stray Stories.

others just as you love to be treated
yourself.
